On behalf of all the Traffic Wardens of the city I would like to thank you whole heartedly for the extraordinary contribution you have made in promoting RSP activities last academic year.

This year we will be having lot of activity and our prime focus will be on increasing the traffic literacy level among all RSP students who will in turn educate the student community.

Activities

We propose the following be initiated this academic year 2011 – 12;

1. RSP students to take **10 minute traffic rules classes** in assembly for the entire school/college once / twice every week. Subject will be provided by us and we also undertake to educate the RSP teachers on the rules and traffic logic. RSP road safety guide will be provided to all RSP students who participate this year.
2. We intend to technically help schools/colleges who would like to **develop a Traffic Park within their premises**. The park can be of any size and can be even a class room. Do let us know if you may be interested.
